SYNOPSIS	<p>Sex & The Celts traces the complete timeline of Irish sexual and gender development from the mysterious sexio-religious rites of pre-history to the all too blatant teenage coming of age rituals of present day life.</p> <p>Dramatic reconstructions reveal such unexpected aspects of Irish history as the bisexual orientation of the macho Celtic warrior elite. Interviewees tell of an island which once had the right of a woman to experience orgasm enshrined in its legal framework. Documentary footage explores the visual heritage of the erotic from the Neolithic landscape of "detached sexual objects." Sex & The Celts pauses in its timeline to subject particularly interesting shifts in sexual paradigms to the scrutiny of historical analysis...and some dryly humorous comment.</p>
