Synopsis

Two men meet in a train station. One believes he's Hitler, the other, Christ. Their unusual pairing brings together two of the most controversial figures in human history. Hitler Meets Christ tells the story of two homeless men wandering the crumbling urban wasteland of a city ghetto. Pitted in a tireless debate, the defiant Hitler is incensed by his companion while Christ struggles to detect any trace of a human soul beneath Hitler's rock-solid layers of bile and hatred.

As the friction escalates, Hitler's rage becomes all-consuming and Christ is forced to test his own endurance in his search to answer the question: Just how far does God's love extend? This chilling tale is based on Emmy Award and Golden Globe winner Michael Moriarty's (Law and Order, Pale Rider) controversial play.
